

# Emmeline Pankhurst

1858–1928

Emmeline Pankhurst was a British political activist and leader of the British suffrage movement which helped women win the right to vote in Great Britain. She was arrested many times for speaking out about this.

Her legacy is that every female in Great Britain over the age of 18 has the right to vote in political elections and to be treated as equals with men in the eyes of the law.
